INTERNATIONAL ELECTRONICS MARKETING (IEM)

IEM is a Marketing group with offices in Southern California and Denver Colorado.

We are a dedicated team of sales professionals who strive to bring quality goods and services from factories around the world to both designers and manufacturers of goods in North America with an emphasis on electrical and electronic designs. We do this through a vertically integrated network of quality suppliers which the **IEM** team has inspected and qualified. Most of our factories are ISO9000 certified. We strive to insure the factories we offer practice GREEN manufacturing techniques and produce energy efficient devices when applicable.

We insure the OEM and our factories are connected, so materials can be procured anywhere in the world with minimal supply chain disruption.

Some of the commodities and goods offered:

- Batteries
- Battery chargers
- Cables, Cabling, Wiring
- Die Castings, Extrusions
- Displays
- Electronic kitting and turnkey boards
- Fans, Heat Sinks
- Machined parts
- Motors, Motor Controllers
- Plastics
- PCBs
- Power Supplies
- Sheet Metal, Stampings
- Sintered Metal Parts
- Subassemblies, Assemblies
- Transformers, Magnetics

Please see our [Line Card](#) for a listing of some of our valued suppliers.
